About Acera

We envision a world in which schools engage students in meaningful learning, in which teachers are freed as entrepreneurs in their classrooms, and in which students can become the best version of themselves, given each students' unique capacities, needs, and passions. The Acera school day program provides students with unbounded access to learning, offering high-capacity students opportunity according to their ability, not age. Acera's enrichment programs (after school, summer, and vacation week camps) are open to the public, and our Education Innovation (EI) efforts are actively engaged in public school projects to support educational change. We also partner with organizations beyond our walls, creating programs rich in sciences, technology, engineering, creativity, and the arts. We operate both as a lab school and a microcosm of what is possible for other schools. We seek to grow students' emotional intelligence and develop the next generation of innovators, leaders, and creative thinkers who can make a positive impact in the world.
