

Summer Camp 2023 Assistant Teacher

Acera: The Massachusetts School of Science, Creativity and Leadership
5 Lowell Ave
Winchester, MA

Job Description: Acera seeks a dynamic, motivated, and dedicated Assistant Teacher to support, as a team with a Lead Teacher, learning experiences for elementary, middle, and/or high school students during our summer camp. Our camp runs for 10 weeks, from June 12 to Aug 25, skipping the week of July 3 - camp teachers will teach for at least 4 weeks. We seek a camp assistant who has a deep love of and respect for children. The ideal candidate will be creative, flexible, collaborative, organized, and able to thoughtfully plan ahead.

We are seeking in-person teachers to join our COVID-vaccinated community of adults. Masks are optional at our camp, and vaccines are not required for student campers. Camps may make ample use of our outdoor learning spaces and local park, with all classes having an indoor “home base” classroom. Classes are capped at 12-14 students.

The right candidate will be patient and flexible to adapt approaches to fit with kids’ learning styles and interests, while also (of course) prioritizing safety and students’ stewardship habits and self management in workspaces, including classrooms and/or our windowed and sunny large Innovation Lab. Additionally, the right educator for this position will have a commitment to students growth over a focus on “perfection” and be personally aligned with our core values and learning approach, as outlined on our website: www.aceraschool.org

The expectations for this position are:

- Collaborate with a Lead Teacher in implementing half-day, week-long camps
- Work at Acera’s camp for a minimum of 4 half-day camp sessions, between the weeks of June 12 and August 25.
- Camp hours are as follows: 8:30-9:00 set up, 9:00-12:00 camp (incl. 30 min recess), 12:00-1:00 lunch/recess (teachers have lunch/recess duty for half, and lunch break other half), 1:00-4:00 camp (incl. 30 min recess).
- Additional paid duties may be available to add on, such as early drop off and late pickup supervision.
- Attend to and support individual students’ needs, taking cues from the Lead Teacher in decision making
- Use a teacher-as-facilitator style. This is not a traditional “in charge teacher who dispenses knowledge” role. Our teachers serve as facilitators who enable student learning in a way customized for student abilities and interests.
- Support Lead Teacher in preparing, organizing, and cleaning up materials for the sessions, demonstrate responsibility and care in shared Innovation Lab space
- Communicate openly, with honesty and compassion.

Overview: Acera is a K-11 hands-on learning STEAM school that provides students with unbounded access to learning. At Acera, students learn, discover and explore at a pace appropriate to each student’s unique motivation and potential, not their age. Our culture is not about pressure to achieve; it is about freedom to thrive. We support our students’ innate curiosity and love of learning with an interdisciplinary, hands-on learning approach. Through developing emotional intelligence, complex and creative thinking skills, and systems awareness, we develop thinkers and innovators who will be able to make positive change in our world. Acera teachers function as entrepreneurs in their classrooms, and are deeply talented and share ideas to support each other as professionals.

Acera Vision: We envision a world in which schools engage students in meaningful learning, in which teachers are freed as entrepreneurs in their classrooms, and in which students can become the best version of themselves, given each students’ unique capacities, needs, and passions. The Acera school day program provides students with unbounded

access to learning, offering high capacity students opportunity according to their ability, not age. Acera's enrichment programs (after school, summer, and vacation week camps) are open to the public, and our Education Innovation efforts are actively engaging in public school projects to support educational change. We also partner with organizations beyond our walls, creating programs rich in sciences, technology, engineering, creativity and arts. We operate both as a lab school and a microcosm of what is possible for other schools. We seek to grow students' emotional intelligence and enable them to become the best version of themselves. Our mission, across our core school day program, enrichment programs and within our partnerships, is to develop the next generation of innovators, leaders and creative thinkers who can make a positive impact in the world.

Qualifications:

- High school diploma required
- 2 years experience working with children, not necessarily in a formal teaching setting
- Experience with a range of technical (coding in Scratch, 3D printing, etc.) and/or non-technical (sewing, crafting, sculpting, etc.) skills is highly preferred
- Highly organized and able to steward workspaces with care, to leave a ready-to-go, predictable space for others
- Experience teaching children to behave safely and treat others with kindness and respect
- Deep care for student growth, happiness and authentic engagement
- Flexible and adaptable for changes and surprises; able to cope with vibrant, busy environment
- Collaborative working style with colleagues and students alike, responsive to feedback
- Strong communication and interpersonal skills

Pay Rate: \$18-\$22

Application:

Please submit resume and cover letter to Ryan Cutter, Enrichment Program Manager.
