

# INNOVATOR SYMPOSIUM

AceraEI's annual Innovator Symposium is a **free** community event that brings these scientists and inventors – and their groundbreaking work – to the public for people of all ages to discover.

**Thursday, October 19 | 6:30-8:30PM**  
**Acera School**  
**5 Lowell Ave. in Winchester, Mass.**

**Groundbreaking science for all ages!**

Meet local scientists, tech leaders, and inventors from **AI Create**, **basys.ai**, **bluebird bio**, **BlueRock Therapeutics**, **General Radar Corp.**, **Lantagne Group**, **MIT**, **Novartis**, **Tufts University** & more.

**Presenters include**

Jaime Chisholm, Senior Clinical Scientist, Syros Pharmaceuticals  
 Rich Colvin, M.D., Ph.D, Chief Medical Officer, bluebird bio  
 Nicki Jennings, Ph.D., Director of Translational Medicine, BlueRock Therapeutics  
 Ned Kirkpatrick, Ph.D., Director, Novartis Institutes for BioMedical Research  
 Leah Leier, Senior Software Engineer, General Radar Corp.  
 Tami Lieberman, Ph.D., MIT Lieberman Labs  
 Daniele Lantagne, Ph.D., Tufts Department of Civil & Environmental Engineering  
 Marios Mattheakis, Ph.D., Deep Learning Center, E Ink Corp.  
 Brent Minchew, Ph.D., Assistant Professor of Geophysics, MIT  
 Mark Oliveras & Mirela Torello, Founders, AI Create  
 Jie Sun, Co-Founder & Chief Operating Officer, basys.ai  
 Susan Woodmansee, Systems & Technology Research

**Take part in hands-on activities like**

Robotics mash-up, optical garden creation, “hacking toys” experimentation

**Free and open to the community**

At this unique and interactive event, there are no assumptions about what content is “too old” or “too young” for attendees. It’s one of the many ways Acera makes science accessible to all ages and learning styles, and connects it to innovations happening in the real world.
