

INNOVATOR SYMPOSIUM

AceraEI's annual Innovator Symposium is a **free** community event that brings these scientists and inventors – and their groundbreaking work – to the public for people of all ages to discover.

Thursday, October 19 | 6:30-8:30PM
Acera School
5 Lowell Ave. in Winchester, Mass.

Groundbreaking science for all ages!

Meet local scientists, tech leaders, and inventors from **AI Create**, **basys.ai**, **bluebird bio**, **BlueRock Therapeutics**, **General Radar Corp.**, **Lantagne Group**, **MIT**, **Novartis**, **Tufts University** & more.

Presenters include

Rich Colvin, M.D., Ph.D, Chief Medical Officer, bluebird bio
Nicki Jennings, Ph.D., Director of Translational Medicine, BlueRock Therapeutics
Ned Kirkpatrick, Ph.D., Director, Novartis Institutes for BioMedical Research
Leah Leier, Senior Software Engineer, General Radar Corp.
Tami Lieberman, Ph.D., MIT Lieberman Labs
Daniel Lantagne, Ph.D., Tufts Department of Civil & Environmental Engineering
Mark Oliveras & Mirela Torello, Founders, AI Create
Jie Sun, Co-Founder & Chief Operating Officer, basys.ai

Free and open to the community

At this unique and interactive event, there are no assumptions about what content is “too old” or “too young” for attendees. It’s one of the many ways Acera makes science accessible to all ages and learning styles, and connects it to innovations happening in the real world.

About Acera School and AceraEI

Acera Education Innovation (AceraEI) partners with educators and school district leaders to cultivate a love of learning in students through choice, voice, agency, and hands-on STEAM learning in public schools. Founded in 2010, **Acera School** provides K-12 education for gifted students.
