

FEBRUARY 2/20-2/23

VACATION CAMPS

Developing the next generation of **scientists, innovators, and leaders** for our world.

HALF DAY CAMPS

9-12 PM High Tea (5-8yo)

Students will create a diverse range of sweet and savory foods and beverages!

9-12 PM Board Game Design (7-10yo)

Students have the exciting opportunity to design and develop their very own board game!

1-4 PM Fantastical Mini Creatures (5-8yo)

Let's unleash our creativity by designing and constructing imaginative creatures!

1-4 PM Animal Habitats, Pelts, Tracks, and Scat (7-10yo)

Students will have the opportunity to study animal tracks and examine pelts up close!

9-12 PM Science Investigators (5-8yo)

Get Ready to Explore! Students will uncover the mysteries of Life, Physical and Environmental Sciences!

1-4 PM To Be A Tree (5-8yo)

The course will cover the impact of the environment on tree growth and development. Students will gain valuable insights into this fascinating topic.

1-4 PM Chicken Scratch Embroidery (7-10yo)

Creating Geometric Patterns on Gingham/Grided Fabric with Basic Stitches!

9-12 PM STEAM Challenger (5-8yo)

Start your day with an engineering and performance challenge!

1-4 PM Gelli Arts Monotype Printing (5-8yo)

Unleash Your Creativity with Gel Plates, Acrylic Paint, Markers, and Stencils to Create One-of-a-Kind Prints!

1-4 PM Forestry (7-10yo)

Explore the Inner Workings of Trees to Enhance Our Environment!

9-12 PM Forts, Fantasy & Friends (5-8yo)

Let's create a world filled with forts, unique characters, and endless imagination.

1-4 PM Animal Habitats, Pelts, Tracks, and Scat (5-8yo)

In this activity, students will have the opportunity to examine animal tracks and pelts up close!

1-4 PM Science Investigators- Spring, Soil, Seeds and Surprises (7-10yo)

Exciting Opportunity for Students to Learn about Local Soil and Water Students will have the chance to observe, discover, and experiment with soil and water in their local area.

FULL DAY CAMPS 9-4 PM

Building a LEGO Smart City (8-14yo)

Our captivating camp invites young minds to join us in the construction of a revolutionary LEGO Smart City. Through hands-on experience with the latest LEGO® Education SPIKE Prime Set and other advanced kits, your child will be introduced to the fundamental concepts of teamwork, problem-solving, and design. As they collaborate within specialized teams - Power, Train, Roads, Buildings, or Vehicles - they will discover the thrill of bringing futuristic ideas to life.

INDOOR MULTI-SPORTS (8-14YO)

Get ready to break a sweat while playing everything from classic soccer, baseball, and football to schoolyard faves like kickball, pickle, whiffle ball, and gaga ball. This camp is your chance to get your game on!

ART CREATION & NATURE EXPLORATION (8-14YO)

We're guiding the next generation of nature-based creatives and responsible hikers through experience-based youth day-camps. Campers will travel to different habitats across northeastern Massachusetts and southern New Hampshire, exploring the natural world and creating art focused on their surroundings. Each day we will travel to a unique and beautiful landscape and allow kids to learn about their environment while creating art in different media.

12-1 PM LUNCH/RECESS
